### Proposed Amendment to the Constitution of the AAS

**Notice:**

The Board of Directors of the Alabama Archaeological Society hereby gives notice to each voting member of a proposed amendment to the Constitution of said society. At the June 26 general membership meeting, a simple majority vote of those present will decide if the proposed amendment will be adopted or not.

**Purpose:**

To provide for and improved continuity of leadership in the Society, and to allow for successful Directors of the Society to continue to serve the society over the long term.

**Proposal:**

In the following proposal, language to be struck is underlined. Language to be added is presented in **bold italics**.

From the Constitution of the Alabama Archaeological Society, Article V, Section II (a), (revised May, 1974):

(A) Officers shall be elected for one (1) year by majority vote of the members present at the Annual State Meeting. The new officers shall assume office at the beginning of the next fiscal

year and serve until their successors are installed. An Officer may be elected to succeed himself/***herself*** for one additional term.

**Rationale:**

1.) Recognizing that there are talented individual members who are willing to devote serious time and personal energy to the business of the Society, and that there are always a limited number of such individuals at any one time, the Constitution should not unduly restrict their participation as officers. Likewise, the Constitution should not unduly restrict the membership from voting for whom they please.

2.) One-year terms remain intact, as the norm. Any officers succeeding themselves must always be re-elected at the Annual Meeting of the Society, by the vote of the members. Any concerns of a domination of the Society by particular members are softened by the fact that the will of the membership is democratically invoked each year.

## AAS Board of Directors Adopt Plan to Increase Membership

---

The Board of Directors of the Alabama Archaeological Society unanimously voted to approve a broad based proposal to reform several of the Society's functions with a goal to restore 100 new members. The action was taken at the BOD meeting in Cullman on May 11, 1999. The current AAS membership is 426. Our goal is to have at least 526 members by the 2001 Summer Meeting. Presented below is a synopsis of the "Plan" to reform the AAS and increase our membership.

### Statewide Meetings

1. A program committee will be appointed to assist the First Vice President to improve the contents of the statewide meetings.
2. Presentations given by archaeologists at the Winter Meeting should be geared towards the amateur members of the Society and should be free of technical jargon.
3. Artifact displays shall be emphasized at statewide meetings. Displays should be arranged in an informed manner consistent with the Society's goals.
4. Summer meetings shall be held at a variety of locations throughout the state such as State parks. This objective is designed to break away from the tradition of having the Summer meeting at an active dig site which are sometimes not practical for the entire membership.
5. The Society will inaugurate official awards to be given out to members for such things as site stewardship, documentation of collections or site locations, special service to the Society, etc.

### The Newsletter

1. The publication schedule shall be changed from twelve to six issues per year.

2. The Stones & Bones shall be expanded to a minimum of 12 pages per issue.
3. The Stones & Bones shall be printed on a 11" x 17" format.
4. The Newsletter Editor shall maintain a list of contacts from which articles for the newsletter will be solicited on a regular basis.
5. The Stones & Bones shall utilize a variety of graphics, photographs, fonts, etc. to enhance the visual appeal of the newsletter.
6. The Newsletter Editor shall maintain a regular schedule for publication.

### The Journal

1. The Journal of Alabama Archaeology shall be given 18 months to catch up to schedule. After that point, it shall maintain a June - December schedule. Additional editors will be appointed, if necessary, to maintain this schedule.
2. The Journal Editor shall commission broadly accessible papers directed to nonprofessional readers.
3. The Journal Editor shall maintain a minimum of four articles per issue over a given two year span.
4. The Journal Editor should regularize book reviews as a component of the Journal by soliciting books from publishers and seeking AAS members to review them.

### Special Publications

1. *The Handbook of Alabama Pottery Types* shall be completed in a timely manner.
2. The Board of Directors shall commission additional works as funds are available. Such works shall be given reasonable deadlines for completion.

### The Board of Directors

1. The Board shall regularly monitor the progress toward increasing the membership by 100 by the 2001 Summer Meeting
2. The Membership Committee shall obtain the names of members that allow their membership to lapse from the Treasurer. The

Committee shall contact ex-members in order to entice them to rejoin.

3. In order to aid the local chapters in planning their monthly meetings, a speakers list will be prepared and given to Chapter Presidents. The Second Vice-President shall supervise the preparation of this list and shall keep it current.

At the Summer Meeting at Fort Morgan on June 26th, President Knight will elaborate on the "Plan." Please make your plans to be there !

---

## **Stones & Bones is Changing to Six Issues per Year**

---

At the May 11th Board of Directors Meeting in Cullman, the Board voted to change the publication schedule of the AAS Newsletter from twelve to six issues per year. This issue will be the last on the old schedule. The following dates will now be in effect for the upcoming year:

Issue July/August  
Deadline for Submitting Articles  
June 15, 1999  
To Be Mailed On or About  
July 1, 1999

Issue September/October  
Deadline for Submitting Articles  
August 15, 1999  
To Be Mailed On or About  
September 1, 1999

Issue November/December  
Deadline for Submitting Articles  
October 15, 1999  
To Be Mailed On or About  
November 1, 1999

Issue January/February  
Deadline for Submitting Articles  
December 15, 1999  
To Be Mailed On or About  
January 1, 2000

Issue March/April  
Deadline for Submitting Articles  
February 15, 2000  
To Be Mailed On or About  
March 1, 2000

Issue May/June  
Deadline for Submitting Articles  
April 15, 2000  
To Be Mailed On or About  
May 1, 2000

---

## **AAS Summer Meeting Fort Morgan - 26 June 1999**

---

The plans for the 1999 Summer Meeting are in place. The Program Committee and our hosts have planned an exciting and informative meeting--in a great beach location--with food, fellowship, and flint. In addition to having the opportunity to visit the ongoing excavation at the historic site of Fort Morgan, we will have an afternoon workshop that will help everyone in point type identification.

Our local hosts are Ashley Dumas and Joe Watkins.

Fort Morgan is located at the end of Hwy. 180 about a 15 minute drive from Gulf Shores on the eastern side of Mobile Bay. It is nicely secluded but the property offers some amenities. Please contact Blanton Blankenship, Alabama Historical Commission Park Manager, for additional information at (334) 540-7125.

### **Schedule of Events:**

9:30am - Registration and morning refreshments at the Fort Morgan Museum.

10:00am - Tour of excavations and site conducted by George Shorter.

12:30pm - Lunch of sandwiches/pasta salad, drinks, etc. on-site will be provided by Alabama Museums Expedition staff at a cost of \$5.00 per person, payable at registration.

1:15pm - Important Business Meeting of the Society.

2:00pm - Paleo and Archaic Projectile Point Workshop. This workshop will include a discussion of the techniques of point type identification, inventory and contact forms, photographing and display formats, etc. There will be a North Alabama discussion by Van King (moderator), Charles Hubbert, Charles Moore, and Boyce Driskell; as well as a South Alabama discussion by Mac Brooms (moderator), John Van Valkenburg, and Reed Stowe. Sample artifacts will be made available for hands-on analysis and identification. All members are invited to bring their projectile point collections for identification at this workshop.

5:00pm - End of Workshop and Summer meeting.

Gulf Shores and Foley boast a wide variety of restaurants and hotels for those wishing to stay in the area overnight. The Alabama Museum Expedition has graciously offered the use of expedition tents that are already erected on-site for AAS use overnight Saturday-but we must be gone by early Sunday so they can prepare for the Expedition crew's arrival starting about noon on Sunday-or you can bring your own tent, camping supplies, etc.

## Lodging for AAS Summer Meeting

---

### **Camping & Campers Gulf Shores / Ft.Morgan / Orange Beach**

Bayside RV Park  
10397 2nd St.  
Gulf Shores, AL 36542

334-540-2416  
RV camping; cabins; hookups; sewer; showers. Cabins available.

Beach Campers  
4224 Orange Beach Blvd. #50  
Orange Beach, AL 36561  
334-981-4136  
RV camping; hookups; sewer; showers.

Callaway's  
17799 Hwy 180  
Gulf Shores, AL 36542  
334-968-7969  
RV camping; hookups; sewer; boat launch; swimming area; store.

Doc's RV Park  
P.O. Box 3556  
Gulf Shores, AL 36547  
334-968-4511  
RV camping; hookups; cable tv; sewer; recreation room; laundry room and pool.

Gulf Breeze RV Resort  
19800 Oak Rd W. (County Road 6)  
Gulf Shores, AL 36542  
334-968-8462/800-966-8884  
RV camping; hookups; cable tv; sewer; showers; indoor & outdoor swimming pool.

Gulf State Park  
22050 Campground Road  
Gulf Shores, AL 36542  
334-948-6353/800-ALA-PARK  
RV and tent camping; hookups; sewer; boat launch; swimming area; showers; store; nature center; tennis courts; playground; fishing pier.

Luxury RV Court  
P.O. Box 1156  
Gulf Shores, AL 36547  
334-948-5444/800-982-3510  
Eighty-nine full hookup sites; laundry and bath houses; walking distance to restaurants and beach; pool; cable; concrete pads; store.

#### Southport Campground

P.O. Box 2386

Gulf Shores, AL 36547

334-968-6220

RV and tent camping; primitive sites;  
hookups; sewer; showers.

#### Cabins Bon Secour Lodge & Boat Ramp

16730 Oyster Bay Place

## Chapter News

---

### **Muscle Shoals Chapter**

The May meeting of the Muscle Shoals Chapter was held on May 10 with 20 people in attendance. Charles Moore presented a program on beads from the Tennessee River area. Charles drew attention to possible ties and trade between the Tennessee River area and the Poverty Point culture due to similarities in zoomorphic beads. The next meeting will be held on June 14 at 6:30 pm when the chapter has its annual picnic at the Florence Indian Mound. Chapter members are requested to bring a covered dish. After the picnic, Kandi Detwiler of the University of North Carolina will present a program on late paleo subsistence strategies. Invited guests will be the staff and students participating in the Dust Cave project.

### **East Alabama Chapter**

The chapter met on May 18th with 18 members present. Stacey Hathorn presented an overview of the Preservation Laws related to archaeology, specifically highlighting the National Historic Preservation Act, the Archaeological Resources Act, and two State laws which protect Alabama's cultural resources. Much interest was created among the members during a question and answer session.

The next meeting of this chapter will be on October 1999 at a new meeting place, to be announced.

### **Cullman County Chapter**

The Cullman County Archaeological Society held its regular monthly meeting on May 20, 1999 at 7 p.m. The program was given by Mr. Charles Moore of Florence. The topic was "The Occurrence of Zoomorphic and Other Stone Beads." This was the last meeting until September.

Events planned for the summer include a trip to the Oakville Mounds and museum.

### **Troy State Chapter**

During the month of May, the Troy State Chapter discussed a fundraising project for the Southwest trip to be taken this summer. A raffle ticket sale was agreed upon.

Also, several members recently participated in the Kids-N-Digs program, presenting slide shows to two area elementary schools. The slide shows dealt with Alabama archaeology and Prehistory of Alabama Indians.

### **Huntsville Chapter**

At the May 25th meeting of the Huntsville Chapter, Dr. Harry Holstein, Department of Physical and Earth Sciences, Jacksonville State University, presented slides and summarized information resulting from eight seasons of field work at the Wright's Farm Site (1Ca18). He also discussed his ongoing dig (fourth season) at the White Plains site in Bains Gap.

In June, two summer camps will provide youth 10 to 16 years of age the opportunity to do

supervised field work in archaeology. The workshop fee is \$99.

---

## **Calendar**

---

The Mid-South Archaeological Conference will be hosted this year by the Tennessee Division of Archaeology and Middle Tennessee State University on June 12-13, 1999, at Pinson Mounds State Archaeological Park.

For more information, contact Kevin Smith at [Kesmith@Frank.mfsu.edu](mailto:Kesmith@Frank.mfsu.edu).

---

## **Book Review**

---

"Time Detectives.

How Scientists Use Modern Technology to Unravel the Secrets of the Past."

by Brian Fagan

Simon & Schuster, NY. 1996

Fagan takes you all over the world to various archaeological digs explaining how modern science is being used to unveil the mysteries of the past.

Fagan writes in his introduction that "today, archaeologists can identify Chinese silk from a single fabric strand, conjure up ancient landscapes from handfuls of tiny seeds and pollen grains, and use carbon isotopes to reconstruct prehistoric diets."

The book keeps you reading and learning of the various techniques used today and how they are applied to different archaeological situations found in different parts of the world.

submitted by: Amos J. Wright Jr.

## Archaeology on the Web

---

There are numerous web pages on the internet today that are devoted to Archaeology. Many of these are from academic institutions and professional organizations that provide the reader with updates on current research and descriptions of artifacts found on their digs. In addition to academic and professional web pages, many individuals are now producing their own web pages featuring their collection of artifacts.

One such prehistory enthusiast is Jerry Cauthen. Jerry is an Alabama Archaeological Society member from Northwest Florida. Jerry and his wife surface collect artifacts from their area and they have produced an excellent web page featuring their recent finds in color. He would like to share information about artifact types with others. Check the Cauthen's web page out. You may get some ideas for your own web page. Jerry's web page site is <http://users.digital.com/~users/wjvd3/>

If you have such a web page or know of other web pages that would be of interest to Stones & Bones readers (both professional and amateur), please pass it along to us and we will put it in the newsletter. The artifacts presented on the web page should be from surface collections or professional excavations only. There are many web pages that present artifacts for sale or feature artifacts illegally or unethically obtained. We are not interested in this type of web page. However, if you know of such a web page featuring artifacts from Alabama, please contact Dr. Tom Maher at the Alabama Historical Commission (334-242-3184) to report it.

---

## Recreational Opportunities

---

Are you looking for information about recreation on federal lands? There is an excellent web site located at <http://www.recreation.gov>.

This web site allows you to pick the state and theme/activity you are looking for. Activities are listed in alphabetical order from auto-touring to winter sports. The list also includes cultural or historic sites to visit.

---

## What's Happening Around the State

---

The Troy State Archaeological Research Center conducted a Phase II investigation at 1Cr23 on the Conecuh River in Crenshaw County during May, 1999. While much of the work on the site entailed 50 x 50 cm shovel tests, one 2 x 2 meter unit was excavated.

The site consisted of several cultural zones buried beneath a silty clay layer which probably resulted from riverine flood deposits. Immediately beneath the clay silt lies the remains of a sandy riverine terrace. It is upon this sandy terrace that cultural material was recovered.

The first zone encountered consisted of a shallow sandy layer with no diagnostic artifacts recovered. Immediately below this zone was a 20 to 25 cm thick deposit of mottled clay which appears to be a prepared floor. A post mold was detected below this clay floor which was probably associated with its construction. On top of as well as within the clay zone was the partial remains of a very large pottery vessel. The vessel was simple stamped from rim to base and contained podal supports. Charcoal was also recovered in direct contact with the vessel and hopefully a C-14 date will be obtained later this summer. The vessel is probably associated with the Deptford culture and my guess is that it will date to around 500 BC (Late Gulf Formational).

At a depth of 60 cm below surface, a Dalton projectile point was also recovered. Unfortunately, the water table was also encountered at 60 cm below surface. Core samples below this depth indicated that sandy but saturated soils continue at least an additional

meter below the Dalton point. Water table or not, you just don't stop when you find a Dalton ! We will continue excavations in a few weeks in hopes that the water table will be lower by that time.

## Office of Archaeological Services Records Thirteen Sites on Alabama Power Company Survey

---

The University of Alabama, Office of Archaeological Services (OAS) was contracted by Alabama Power Company (APCO) to perform a cultural resources reconnaissance level survey of the proposed Ellicott T.S. to North Brewton T.S. 500 kV transmission line right-of-way. The proposed transmission line extends 62 miles through Escambia, Baldwin and Mobile counties, Alabama. The majority of the line follows an existing transmission line and a width of approximately 50m (162.5 ft) was surveyed from the edge of the existing ROW.

Three-quarters of the study corridor is set within the Southern Pine Hills of Escambia County and northern Baldwin County. The majority of this segment is located upon timber land that has been severely disturbed, providing poor environmental conditions for archaeological deposits to survive. Few sites (n=4) were recorded along that segment. The remaining corridor continues across the Mobile-Tensaw Delta and crosses the Mobile River into Mobile County, stretching across the edge of the Southern Pine Hills and the margin of the Coastal Lowlands. This portion of the corridor contained the majority of the sites (n=9). Thirteen archaeological sites were evaluated during the survey, in addition to one standing structure and one cemetery.

Eleven of the archaeological sites are considered ineligible for nomination to the NHRP based on their poor context and/or inadequacy to yield significant data regarding the cultural development of the area. The Andry House is also

considered ineligible due to its deteriorated condition and lack of architectural significance. The Emmons Cemetery, although not considered NRHP eligible, is protected by state burial laws. The cemetery is located near the proposed ROW and should be avoided.

The two remaining cultural resources, Site 1Ba255 and Site 1Mb201/287, are considered potentially eligible for nomination to the NRHP under Criterion D. Located within the Mobile-Tensaw Delta, Site 1Ba255 is a moderate to dense artifact deposit and shell midden., dating between the Late Gulf Formational to Late Woodland. Although portions of the site have been disturbed by the existing transmission ROW and roadway, an intact shell midden is present. Site 1Mb201/287, located on the northeast bank of Cedar Creek, appears to represent one of the few known Apalachee villages in the Mobile area. The original settlement of the site coincides with the abandonment of Old Mobile and the fort's relocation to the mouth of the Mobile River. Historic references indicate that the Apalachee people occupied the site area between 1711 and 1763. The site is currently estimated to cover approximately 270m by 100m. The existing and proposed transmission line crosses the southern portion of the site. The integrity of the cultural deposits located within the proposed ROW have been somewhat compromised. Measures are being taken to avoid additional impacts to Sites 1Ba255 and 1Mb201/287.

---

## Donations Received

---

The Alabama Association of Professional Archaeologists made donations to each of the **Edward C. Mahan Fund**, **Wimberly Scholarship Fund**, and the **Public Education Fund**.

Your donations are greatly appreciated!!

Donations can be made to the grant programs any time during the year. Donations to the Stephen B. Wimberly Scholarship Fund provides the financial support necessary for the Student Scholarship program while donations to the Edward C. Mahan Fund are used to fund research grants. Funds for the Public Education grants are provided by the Public Education Special Projects Fund.

**Please send your donations to:**

AAS

13075 Moundville Archaeological Park

## *Discovering Archaeology: A New Publication!*

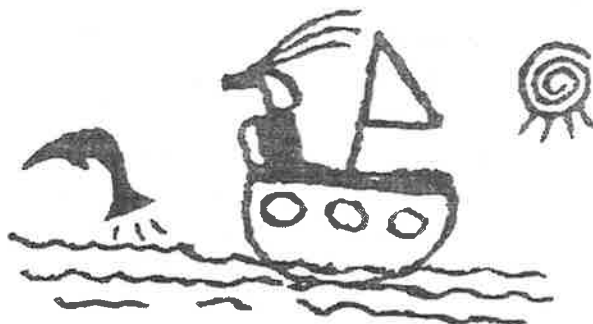

---

*Discovering Archaeology* is a new publication that your whole family will enjoy. The articles are stylish enough for the general reader but are no less entertaining for the professional archaeologist. The articles cover all kinds of archaeological topics from prehistoric to historic, on land as well as underwater, and all around the globe. The articles are vividly illustrated with high resolution glossy photographs that add to the enjoyment of this magazine.

The magazine began publication in January, 1999 with vol. 1, no. 1. The March/April issue was published about 6 weeks ago so when you order you might want to get the first two issues in order to maintain a full set.

Cut out the order form in this issue of *Stones & Bones* and begin your subscription today. The first 100 members of the AAS attending the Summer Meeting at Fort Morgan June 26th will receive a free copy of the May/June issue!

### Alabama Archaeological Society Summer Meeting: June 26, 1999
