### VERY IMPORTANT NOTICES

**SUMMER MEETING:** The summer meeting of the Alabama Archaeological Society will be held July 17, 1976 at Mound State Monument in Moundville, Alabama. A number of informal talks will be given by various archaeological researchers around the state. Complete details will appear in next month's newsletter.

**JOURNAL PRICE CHANGE AND SPECIAL SALE:** At the May 8, 1976 Board of Director's Meeting in Birmingham, it was decided that the following changes would be made concerning the purchase price of our Journals. Effective immediately, all 1967 through 1973 Journals may be purchased for \$1.00 each; 1974 and 1975 Journals will be on sale for \$2.00 each until August 1, 1976. After August 1, 1976, the 1974 and following Journals will cost \$4.00 each. The \$1.00 each price for the 1967 through 1973 Journals will remain in effect until all the back issues are sold. Your March 1976 Newsletter contains a complete list of the available issues and the contents of each, as well as an order form. If you have misplaced this issue, additional copies of the publications list may be obtained by writing David L. DeJarnette, Editor, Box 306, Daphne, Alabama 36526. Although there are many reasons for this special sale, the most important is that the Publications Committee has plans to print Special Publication #2 within the next few months, and funds to cover the cost of this publication are not presently available.

### STOLEN: WASSON-NAMAGA PEACEPIPE

HELP! A precious piece of Nevada history is now in the hands of thieves. Despite increased security measures, the robbery of the Wasson-Namaga peacepipe took place July 17, 1975, in broad daylight at the Nevada State Museum. The historic importance of this peacepipe to the State of Nevada is found in its name. Following the Pyramid Lake Indian War, Warren Wasson, an acting Indian Agent, arranged a meeting between Namaga, known also as Young Winnemucca, who was the peace diplomat for the Paiutes, and himself. As a sign of peace and friendship, Namaga gave his war bonnet, bows and arrows and his tomahawk peacepipe. If you should have any information relating to this peacepipe please contact Pamela Crowell, Nevada State Museum, Carson City, Nevada 89701 (702) 885-4810. (Information from the magazine POPULAR ARCHAEOLOGY and submitted by Juanita Battles, Gadsden, Alabama).

## SEVENTEENTH ANNUAL DIG FUND REPORT

Your Archaeological Research Association is a bit disappointed this month about the number of contributions it is able to report following the excellent article Steve Wimberly included on Page 2 of our May newsletter outlining our field project for 1976. Perhaps our membership, and especially our donors, are too involved in the national political primaries to consider our Alabama prehistoric Indian heritage. If so, let's take time to get back down digging us up some excavation checks, as it will eventually be "pay day" at our diggings and we will surely need to have funds on hand.

So please use the small bottom portion of the inside back cover of this or a previous newsletter to get your income tax deductible donation for 1976 on record. You'll feel better, too, as do the following donors during May:

LIVELY-LONG-JOSSELYN PEBBLE TOOL PAPERS, their third this year.

KENNETH C. CARSTENS, St. Louis, Missouri, our third NEW DONOR.

DR. ALBERT M. FISHER, Decatur, a CHARTER DONOR making his SEVENTEENTH contribution.

### WANTED TO BUY: JAA BACK ISSUES

In order to complete my set of the JAA, I need Volume XI, Nos. 1 and 2, 1965 and Volume XII, No. 1, 1966. If you have any of these that you don't want, or if you know someone who has them (perhaps someone who was a member but has lost interest) please contact me at Drawer BA, University, Alabama 35486. I promise to give them a good home.

(Eugene Futato, University, Alabama)

### OUTSTANDING FILM AVAILABLE

As mentioned in the Tennessee Archaeological Society's newsletter, an outstanding film - "THE EARLY AMERICANS" - is available free of charge from the Shell Oil Film Library, 1433 Sadlier Circle W. Drive, Indianapolis, Indiana 46239. The Muscle Shoals Chapter showed this 40 minute, 16mm film at its May meeting, and those present were very impressed with it. The film gives an excellent panorama of Indian life for more than 10,000 years. The Shell Oil Film Library's phone number is (317) 291-7440, if you prefer to call to check on the availability of the film.

(Charles Moore, Florence, Alabama)

### ALABAMA FOLK HOUSES

Alabama Folk Houses is a very interesting book by Eugene M. Wilson of the University of South Alabama. Alabamians interested in the origin and evolution of our earliest architectural house styles will find this book very useful. Wilson concentrates on the earliest log houses including the single pen, dogtrot, double pen and saddlebag houses. Techniques of construction from foundation to roof are discussed and diagrams, photographs and tables of actual measurements are presented, as well as maps showing the geographical distribution in Alabama. This 115 page book may be purchased for \$5.00 from the Alabama Historical Commission, 725 Monroe Street, Montgomery, Alabama. Wilson has also published a booklet entitled A Guide to Rural Houses in Alabama, \$1.00 per copy, which is also available from the Commission. No additional postage fee is charged.

(Mack Brooms, Montgomery, Alabama)

## LIST OF PROGRAMS

The following list of speakers available for chapter meetings has been prepared in order to get at least some information to the chapters. This is a preliminary list, and hopefully a complete list covering the entire state will be available. There are many other excellent speakers available for talks on archaeology or related subjects in the state. The names of some speakers who have given talks in the past have been omitted from this list for either of two reasons: lack of up-to-date information or the assumption that most all chapters are familiar with the names and present availability of long time members. Some of the names are not accompanied by current information and have been included mainly to give as good a coverage of the state as possible.

#### RIKER MOUNTS FOR SALE

frames. These glass-faced frames are available in 12" by 16" (\$3.25) and 8" by 14"  
(\$2.25). Because of the good probability of glass breakage, these cannot be  
mailed, but can be purchased at the Museum. These frames provide an excellent  
method of displaying artifacts by sites, types and cultures.

(Charles Moore, Muscle Shoals Chapter)

### CHAPTER FIELD TRIP

On Saturday, April 17, the Muscle Shoals Chapter held a guided field trip for surface hunting. Seventeen members and guests had a great day at two large field sites. Everyone found at least a partial artifact; several fine specimens among which was one fluted point. Since some participants had never found anything, the trip was especially meaningful, and the chapter expects to gain several new members.

Especially emphasized were good hunting rules: getting prior permission from the farmers; labeling the artifacts for site identification soon afterwards; identifying the artifacts and establishing approximate dates and cultural periods of the artifacts and sites.

The trip was so successful, being both educational and enjoyable, that the chapter hopes to make it an annual event.

## BOOK REVIEWS

HAZOR - The Rediscovery of a Great Citadel of the Bible, by Yigael Yadin. Random House, New York, 1975, \$20.00.

The author is renowned as an archaeologist and professor at Hebrew University, Jerusalem. From 1955-58 he directed the excavations at Hazor. Then he went back for further work.

Uncovering over 22 cities of antiquity, including the original city of Hazor which dated 2500 B.C. from a clay tablet found in the ruins. Yadin's book is well written and easy to read. The enormous number of items uncovered is almost unbelievable; the site was a 200 acre mound. The stone walls, pottery, seals, figurines, beads, etc., are rather interesting. The book is beautifully illustrated with color photographs, as well as black and white drawings and maps. A book worth reading.

CIRCLES AND STANDING STONES; an illustrated exploration of Megalith Mysteries of Early Britain, by Evan Hadingham. Walker, New York, 1975, \$12.50.

An interesting and informative book giving much information concerning the megaliths of Britain. The amazing number of sites of long barrows, hill forts, stone circles, etc. is almost unbelievable.

The chapter on the mystery of stone carvings is of particular interest to me due to the similarity of the cup stones and concentric circle designs found on stones in Georgia. Also, the finding of great house sites similar to Creek Indian rotundas, as described by William Bartram in his travels in early Georgia.

Long explanations given as to astronomical calculations concerning Stonehenge and megaliths. Also, there is a chapter about the Druids. Drawings, maps and photographs make this book well illustrated for reading pleasure.

Margaret Perryman Smith, Atlanta)

## DESIGNING THE CAPITOL

The challenge and excitement of building the U.S. Capitol in the last decade of the 18th century have been captured in a new exhibit at the historic Octagon (1800), the Washington, D.C. headquarters of the American Institute of Architects. The exhibit runs through June 13. 'Designing a Nation's Capitol' shows the imaginative results of a competition sponsored by the Commissioners of Federal Buildings in 1792 that sought to insure an American design for the seat of government at a time when there were few U.S. Architects.

Eleven of the 15 entrants (all amateur but one) are represented through original architectural drawings, portraits, pattern books, documents, prints and engravings. An early design of the winner, William Thornton, shows the front elevation. The "Conference Room" was submitted by Jacob Small. An illustrated catalogue accompanies the exhibit, which was assembled by Jeanne F. Butler, curator of the Octagon. (From the Preservation News, April 1976, the monthly newspaper of the National Trust for Historic Preservation.)

(Marjorie Gay, East Alabama Chapter)

## THE ALABAMA ARCHAEOLOGICAL SOCIETY

Following are the objectives stated in our Constitution, slightly modified for emphasis: To promote informed interest in the study of Archaeology in Alabama and neighboring States; to encourage careful scientific archaeological research in such ways as surface scouting, mapping, marking, studying and especially reporting; to promote and support professionally directed excavations and discourage unsupervised "digging"; to promote the conservation of archaeological sites and to favor the passage of laws prescribing such; to oppose the sale of antiquities, and the manufacture and sale of fraudulent artifacts; to encourage and develop a better understanding of archaeology through providing Newsletters, Journals, Chapter and State meetings, helpful associates and good fellowship; to serve as a bond between individual archaeologists in the State, both non-professional and professional; and perhaps most importantly, to give everyone the opportunity to "do something about archaeology" through the accomplishment and enjoyment of these high aims.

The Society needs and welcomes as members, all persons whose ideals are in accord with the objectives set forth above. Active members receive the JOURNAL OF ALABAMA ARCHAEOLOGY, devoted to articles on the archaeology of Alabama and nearby States, and also receive the STONES & BONES NEWSLETTER, published monthly, containing news of members and their activities, also State, national and worldwide events of archaeological importance.
