SUMMER MEETING TO BE HELD IN HUNTSVILLE

The Huntsville Chapter will host the 1979 Summer Meeting of the Alabama Archaeological Society which will be held on Saturday, July 14, 1979, at the Hilton Inn. The program, a map of the area, and other pertinent information will appear in the July issue of the "Stones and Bones" Newsletter.

HIGHLIGHTS OF THE BOARD OF DIRECTORS MEETING

The Society's Board of Directors met in Birmingham on May 20, 1979, and; in addition to other business, transacted the following business:

- 1. Established that the Society's Summer Meeting will be held in Hunts-ville (on Saturday, July 14, 1979).
- 2. Amended number (C) of Section 4 of Society's Bylaws as follows: Change the name of the "Site Preservation Committee" to the Archaeological Resources Committee and reduce the number of members to six.
 - 3. Approved President Wells' nominees to this committee.
- 4. Agreed to evaluate information made available by the Society's Representative to ESAF, Mrs. Marjorie Gay, and determine at the next Board Meeting if the Society can volunteer to host the ESAF Annual Meeting in 1981 or 1982.
- 5. Received a report from Journal Editor, Mr. Eugene Futato that certain back issues of the Journal have gone out-of-print, and others will be out of print in the next few months; and that the special publications sales are proceeding well.
- 6. Received an invitation from the East Alabama Chapter to hold the 1979 Annual Winter Meeting in Auburn.

1979 OFFICERS OF THE ALABAMA ARCHAEOLOGICAL SOCIETY

Office	Name	Address	<u>Telephone</u>
President	Mr. Michael C. Wells	2713 Southbury Circle Birmingham, Alabama 35216	979-2979
lst Vice President	Miss Dorothy P. Luke	2643 Bonita Circle SW Huntsville, Alabama 35801	539-8688
2nd Vice President	Mr. Joe Watkins, Jr.	3100 Robin Circle Birmingham, Alabama 35223	967-5192
Sec. and Treas.	Mrs. Bettye T. Henson	7608 Teal Drive SW Huntsville, Alabama 35802	881-9389
Ass't. Treasurer	Mr. Rodger L. Schaefer	1414 - 15th Avenue SE Decatur, Alabama 35601	353-5828
Journal Editor	Mr. Eugene Futato	Drawer BA University, Alabama 35486	371-6369
Associate Editor	Mrs. Polly Futato	Route One, Box 10 Moundville, Alabama 35474	371-6369
Associate Editor	Mr. Ned Jenkins	Box 66-Mound State Monument Moundville, Alabama 35474	345-7257
Associate Editor	Dr. Christopher Peebles	Museum of Anthropology University of Michigan Ann Arbor, Michigan 48106	662-6033

CALHOUN COUNTY SURVEY

During the months of May and June, Dr. Harry B. Holstein of Jacksonville State University and the Anniston Museum of Natural History will be conducting an archaeological survey of Calhoun County, Alabama. Students from Jax State will actively participate in this survey along the Tallasseehatchee and Choccolocco drainages. The archaeological materials will then be processed and stored at the Anniston Museum of Natural History. Pertinent site data will then be recorded with the University of Alabama Archaeological Research Department.

During the preparation for this spring's survey, Dr. Holstein has already located eleven prehistoric sites. The majority of these sites are relatively small (less than three acres) ceramic and/or lithic bearing sites. Based on the artifacts recovered thus far, most of these sites appear to represent limited activity hunting, hunting related, and/or plant processing sites.

Temporarily, point and ceramic typologies indicate heavy occupation of the area from the Archaic through Mississippian times. Paleo Indian bifaces have also been observed in local collections.

Anyone interested in contributing to the archaeological investigation of the history of Calhoun County may contact Dr. Holstein at the Anniston Museum of Natural History or at the Department of Sociology, Jacksonville State University.

CHAPTER NEWS

Birmingham Chapter - The Birmingham Chapter meets the 2nd Thursday of each month at the Red Mountain Museum. For further information, call Tom Hutto at 956-1895.

Cullman Chapter - Carey Oakley was the guest speaker at the May Meeting of the Cullman Chapter. He spoke on "Underground Archaeology", which was a most interesting subject.

East Alabama Chapter - The East Alabama Chapter meets on the second Wednesday of each month in the Thach Auditorium on the campus of Auburn University at 7:30 p.m. For more information, call Dru McGowen at 821-2595.

Huntsville Chapter - Mr. Tom Cornell, with the help of Mrs. Georgia Dunn, (two founders of the Huntsville Chapter) spoke on the subject, "History of Archaeology in the Tennessee Valley from 1930 to the Present." The Huntsville Chapter meets on the third Tuesday night of each month at 7:00 p.m. in the Arts Council Room of the Von Braun Civic Center. Hal Ensor, assistant to Ned Jenkins, will present the June program.

ALABAMA HISTORICAL COMMISSION 1979 GRANTS AWARDED

Auburn University at Montgomery, \$12,890 for a systematic survey and inventory of archaeological sites along 246 miles of the lower Alabama River.

Livingston University, \$15,000 for planning and research for the development of the site of Fort Tombecbee, the 1735 French fort on the banks of the Tombigbee River in Sumter County.

(From PRESERVATION REPORT - Volume VIII, Number 1, January/February/March 1979)

"GOLDEN" DISCOVERY: OLDEST BERING MAN?

University of Washington geologist Lee Porter has found fossilized animal bones in the Alaskan Yukon-Tanana uplands that have been radiocarbon dated to 29,700 years. Further examination of the bones has revealed chop marks, burn marks and spiral fractures indicating they were slaughtered by Homo sapiens.

The presence of the bones supports the theory that early humans migrated to Alaska from Siberia in search of game during the Pleistocene Era (a period lasting from 1.8 million to 10,000 years ago). The interior of Alaska seems to have escaped the massive accumulation of ice that occurred elsewhere because it was protected by mountain ranges on the north and south, becoming a wildlife refuge and sanctuary.

Examination of some of the bison bones by the University of Maine's Robson Bonnichsen seems to indicate that the animals were butchered by early humans who, lacking usable rocks and the technology to craft metal tools, used bone fragments broken from the animals themselves to loosen and carve the meat.

LOCH NESS REVISITED

Underwater observations of moving targets in Scotland's Loch Ness, using sonar and photographic equipment, have heightened scientific speculation that the celebrated resident monster, "Nessie," may be more than a tall tale. After centuries of myths, hoaxes, and unsubstantiated claims, there seems to be some basis for the cautious change in attitude that is taking place within the scientific community. Edivence gathered over the last decade has been largely responsible for this shift.

Of particular interest is a series of film-strip frames taken during June 1975. Here, photography was aided by sonar to produce a record of major underwater disturbances. More recently, on June 30 and July 31, 1976, underwater sonar traces were recorded for a fast-moving object that came within 80 meters (260 feet) of stationed cameras, and then departed. No reasonable explanation for these tracings could be offered by expedition members, except that they may be evidence that some living thing is indeed lurking in the depths of Loch Ness.

Fact or fantasy? The coupling of sonar and photography has produced records that have inspired even some of the more skeptical scientists to take a second look. And so, spurred by the promise of even better results with equipment that has been modified and refined over a decade of trial and error, the search for the elusive Loch Ness monster goes on.

BACK ISSUES OF JOURNAL OF ALABAMA ARCHAEOLOGY

Volume XIX, No. 2, December 1973, of the Journal of Alabama Archaeology is now out of print. This issue was Part 2 of the report "Archaeological Investifations of the Weiss Reservoir of the Coosa River for Alabama." Part 1 of this report went out of print several months ago.

There are a number of other Journals with only 10 or 15 copies remaining. These issues will be out of print soon. With the new members' discount for back issues, there will never be a better time to order. Don't miss out. The remaining issues and their prices are: Vol. 13, No. 2 through Vol. 18, No. 2 at \$1.00 each; Vol. 20, No. 1 through Vol. XXIV, No. 2 at \$4.00 each or \$2.50 each for members. (Journal Editor, Eugene Futato)

STONES AND BONES 5 June 1979

PUBLICATIONS

FLINTKNAPPERS' EXCHANGE is a newsletter of, by, and for lithic technologists. FE will publish informal, non-academic, but professional notes relating to replicative lithic experimentation. FE is published three times a year in Jan., May, and Sept. Each issue is 20-25 pp. long and 8½ by 11 inches in size. FE is edited by Errett Callahan and Jacqueline Nichols and is published by Catholic University of America. Price is \$2 per issue or \$5 per year. Make checks payable to FLINTKNAPPERS' EXCHANGE, c/o J. Nichols, Dept. of Anthropology, U. of New Mexico, Albuquerque, N. M. 87131.

A Basic Guide to Virginia Prehistoric Projectile Points is well on its way to publication. The Board approved appropriation of funds to publish the manual. The projectile point guide, which Hranicky is co-authoring with Howard MacCord, will be printed by Popular Archaeology Press.

(ARCHEOLOGICAL SOCIETY OF VIRGINIA, NEWSLETTER #68, MARCH 1979)

A new museum publication is now available entitled "The Buck Burial Mound", by Yulee Lazarus for \$4.75. Send order to P. O. Box 1449, Fort Walton Beach, Florida 32548.

INTERAMERICAN, a newsletter of the institute interamericano will be published quarterly in 1979 and is supported by voluntary contributions. Address all communications to the Director, Carl B. Compton, 5133 NT, Denton, Texas 76203. Telephone: (817) 382-6686. (from First Quarter 1979)

"CANYON DE CHELLY, Its People and Rock Art" by Campbell Grant. University of Arizona Press, Tucson, 1978. 279 pp., index, maps, charts, copiously illustrated. \$5.95 paper. \$19.50 cloth. This is undoubtedly the finest and most complete book ever written on the Canyon de Chelly—one of the most important locations in the U. S. Southwest. This site was inhabited longer continuously than any other area in North America-hosted all of the various tribes and groups which have lived in the U. S. Southwest from the earliest times. The first part of the book deals chiefly with the people who have inhabited the Canyon at various periods. The second part of the book is largely devoted to the rock art, both petroglyphs and pictographs. These have been made by all the various people who have lived in the canyon and thus they are quite varied in style. We were especially surprised to note how many contained green or even blue. These are not common colors and while not really rare are somewhat hard to find in earth and rock which could be ground to form pigment. We disagree with Grant when he speaks of using white of egg for a paint binder. It can't be done-egg tempera uses the yolk of the egg which is a very excellent binder. Yolk of egg will last for centuries. We advise anyone interested in the U. S. Southwest by all means to get this book.

(The above book review is by Marjorie Gay, Standing Rock, Alabama.)

PRE-PUBLICATION OFFER FOR NORTH AMERICAN ARCHAEOLOGIST AND ARCHAEOLOGICAL PER-SPECTIVES ON ETHNICITY IN AMERICA (This offer expires with the completion of Volume 1)

This special offer is made to members of state, provincial and local archaeological societies. Send \$13.50 (regularly \$15.00) for Volume 1 (1979-80) North American Archaeologist to Baywood publishing Company, Inc., 120 Marine Street, Farmingdale, New York. 11735.

American archaeology in the 1970's is facing a crisis. Continuing growth of the field is dividing the archaeological community along disciplinary and institutional lines. Archaeologists in the academic world are in danger of becoming isolated from their colleagues in Resource Management and government agencies. These groups in turn are failing to interact fully with the expanding membership of state and local archaeological societies. Researchers in the new area of historical archaeology are also moving away from those in prehistoric studies because of the rise of different national meetings, journals and societies.

The creation of NORTH AMERICAN ARCHAEOLOGIST, which will start publication in 1979, is an attempt to counterbalance this splintering process. The journal will be unique among archaeological publications in this country in that it will:

- 1) be dedicated solely to North America, excluding areas of high civilization in Mexico,
- 2) cover all aspects of prehistoric and historical archaeology, ranging from Paleo-Indian studies to industrial sites,
- 3) incorporate not only the results of academic research but also the findings resulting from contract archaeology and resource management, and
- 4) regularly publish work based on activities in state, provincial and local archaeological societies.

An active board of regional and special advisory editors has been appointed to insure broad coverage, with Maurice Robbins of the Massachusetts Archaeological Society being the first Special Advisory Editor for State, Provincial and Local Archaeological Societies.

"North American Archaeologist will bring to members of archaeological societies information concerning the work of local archaeological groups throughout the country as well as that of national organizations. This combination of avocational and formal archaeological investigation will inculcate a better understanding between these two complimentary groups which have a common interest. It will fill the gap between the highly technical and theoretical publications and those of the state and local societies. As state archaeologist I am painfully aware of the necessity to make full use of the talents of both avocational and professional and have high hopes that this medium will contribute to such a desireable union of effort."

Maurice Robbins State Archaeologist Commonwealth of Massachusetts

MEETING

The 12th Annual Meeting of the Alabama Historical Commission will be held in Tuscaloosa, Alabama on July 27 and 28, 1979. For more information write to Alabama Historical Commission, 725 Monroe Street, Montgomery, AL 36130.
